WHO AM I?

Expert Cloud / DevOps / Database Engineer with 15+ years in financial and telecom industries. With extensive expertise in Oracle, Python, and cloud automation (Azure, Ansible, GitLab CI/CD), I am skilled at designing secure, scalable, and high-performance platforms. Adept at solving complex challenges and driving innovation in fast-paced environments.

EXPERIENCE

- 09.2024 – now **Cloud Engineer** **UBS, Wrocław, Poland**
- Supported Azure infrastructure, mainly Azure Kubernetes Services and PostgreSQL, ensuring geo redundancy, disaster recovery, performance and cost optimisation.
 - Collaborated with developers to streamline the deployment process using GitLab CI/CD pipelines and Helm Charts.
 - Developed and maintained Ansible playbooks to automate infrastructure provisioning.
 - Engineered a custom Python CLI tool to streamline Azure subscription management and provide seamless, secure connectivity to various databases.
- AKS / Azure / Python / Ansible / GitLab CI/CD
- 06.2023 – 09.2024 **Database Engineer** **UBS, Wrocław, Poland**
- Built Oracle on Azure VM platform with Entra ID integration; developed a security model using Python + Azure Functions + Service Bus, deployed via GitLab CI/CD.
 - Designed and maintained solutions for DBaaS, improving automation, monitoring, and compliance.
 - Collaborated with cross-functional teams to deliver secure, performant database platform.
- Azure / Entra ID / Python / bash / GitLab CI/CD
- 07.2022 – 06.2023 **Oracle Security SME** **UBS, Wrocław, Poland**
- Designed and implemented Oracle DB security solutions (LDAP, certificate-based authentication, Kerberos).
 - Automated compliance/audit processes, remediation and reporting using Python/Bash scripts.
 - Supported multiple large-scale migrations (SHA2, LDAP OID to OUD).
- Oracle / LDAP / Cryptography/TLS / Python / bash
- 01.2019 – 07.2022 **Oracle Database Engineer** **Swisscom, Zurich, Switzerland**
- Led performance tuning and troubleshooting on Oracle Exadata & ODA.
 - Developed automation with Ansible, improving deployment speed and reliability.
 - Managed cross-platform migrations and replication with GoldenGate (Oracle - Oracle, Oracle - Teradata).
 - Delivered monitoring enhancements (OEM, custom tools) that reduced toil.
- Exadata / Oracle / Golden Gate / Ansible / Python

- 07.2014 – 09.2018 **Oracle Onsite Coordinator** **IBM for SwissRe, Adliswil, Switzerland**
 – Led a 10-person DBA team on-site, delivering database engineering projects (Exadata migration, backup modernization, redundancy testing).
 – Drove automation initiatives, mentoring juniors, and collaborating with Oracle ACS on escalated performance issues.
 Exadata / Oracle / bash / PL/SQL
- 04.2012 – 07.2014 **Oracle DBA** **IBM for SwissRe, Wrocław, Poland**
 – Supported over 100 Oracle Databases, with expertise in installation, configuration, backup and recovery, performance tuning, and troubleshooting on Linux, UNIX, and Exadata platforms.
 Linux / Oracle / bash / SQL
- 06.2011 – 04.2012 **Computer Operator** **IBM for SwissRe, Wrocław, Poland**
 – Maintained and monitored over 2,000 Windows and UNIX servers, providing first-level support and coordinating major infrastructure changes.
 Windows / Linux / Hardware

EDUCATION

- 2002 – 2007 **Master of Science in theoretical Physics** **University of Zielona Góra**
 Faculty: Physics, Major: Computer Science
- 1999 – 2002 **High School Graduate** **Maria Skłodowska - Curie High School in Andrychów**
 Faculty: Physics and Math

LANGUAGES

English - fluent
German - rudimentary
Polish - native
